MOTT-SMITH BLOCK,  
Corner of Hotel and Fort Sts.,  
HONOLULU,  
REPUBLIC OF HAWAII.

# INSTANTANEOUS PORTRAITS.

## IRIDIUM, BAS-RELIEF,

## CARBON and PLATINUM,

### SPECIALTIES.

THIS Company is now fully prepared to take Instantaneous Portraits at their Studio. All work done by first-class workmen, and nothing but high-class work executed. Pictures after Rembrandt and Bartolozzi Mezzo-tints. Sole proprietors of the Bas-Relief and Iridium processes. Mr. Davey gives personal attention to all sittings, and does not wish his patrons to take pictures that are not entirely satisfactory. We are prepared to make Groups at residences, by flashlight or daylight. Copying and Enlarging specially attended to. Life-size Pictures made upon Porcelain, finished in Water Color, Sepia or Crayon.

APPOINTMENTS made by Telephone 492. No stairs to walk up. Take the Elevator—perfect in all its appointments—at the Office on the ground floor, and you will reach the Studio without fatigue.

EVANGELINA COSSIO CISNEROS.

Evangelina Cossio Cisneros, the beautiful Cuban girl whose sentence to 20 years imprisonment in the horrible penal settlement of Centa has aroused public opinion in America, is a relative of President Cisneros, of the Cuban Republic.

#### TO RETURN TO BROWN.

President Andrews Withdraws His Resignation.

PROVIDENCE, (R. I.), September 14.—E. Benjamin Andrews has withdrawn his resignation as President of Brown University. Tonight the students are celebrating the event and the university will reopen tomorrow with renewed activity and vigor. President Andrews' letter to the officials is as follows:

BROWN UNIVERSITY, September 14, 1897.—To W. V. Kellen, J. H. Stiness and R. G. Hazard, Committee—Gentlemen: The resolution of the corporation of the Brown University on the 1st inst., communicated to me by you, has been carefully considered. I take pleasure in assuring you that the action referred to entirely does away with the scruples which led to my resignation. At the date, however, when you laid the communication before me I had undertaken to perform the coming year certain work which, after learning the judgment of the corporation on the subject, I came to regard as incompatible with the duties of the presidency. I felt obliged at first to adhere to my resignation. But, being now free to give to the university my undivided services, I have withdrawn my resignation and have notified the secretary of the corpora-

tion to that effect. I am, gentlemen, yours, with sincere esteem.

E. BENJAMIN ANDREWS.

This move was entirely unexpected, as it was thought his resignation had been finally decided upon.

#### UNION PACIFIC SALE.

Cabinet Not Expected to Advise an Appeal.

WASHINGTON, September 15.—It is probable that within a few days Attorney-General McKenna will announce the course the Government will pursue with reference to the decree of foreclosure in the case of the Union Pacific Railroad. It can be said upon good authority that the chances are very strongly against the Government's appealing from the decree.

The Cabinet did not pass upon the question definitely, but, on the contrary, postponed final determination of it until a future meeting, but there was so much said by the various members in favor of allowing the sale of proceeds, that it is considered by those familiar with the matter that there is little doubt as to what the final conclusion will be.

#### America Leads in Machinery.

LONDON, September 15.—A blue book has been issued giving the replies of the colonial governors to the dispatch of the Colonial Secretary, Joseph

Chamberlain, in 1895, sent with the view of ascertaining the extent of the displacement of British goods by foreign goods. The main conclusions reached are that the British manufacturer is still supreme in the best classes of goods, with the exception of machinery and tools of certain patterns, in supplying which the United States is most successful, although Canada is often a successful competitor in these lines.

#### Trades Union Federation.

BIRMINGHAM, England, September 10.—The Trades Union Congress today passed a resolution instructing the parliamentary committee to collect and distribute a special fund to assist the striking engineers. Later the congress suspended "standing orders" in order to introduce a resolution on national federation, introduced by the National Plate-Glass Bevelers' union. It read: "This congress is of the opinion that nothing short of national federation of all trades and industries will relieve the workers in the present unsatisfactory condition, and instructing the parliamentary committee to issue a circular, based on this national system of federation, with a view to enlist the co-operation of all organized workers throughout Great Britain."

The resolution was adopted with enthusiasm.

#### FOREIGN NEWS NOTES.

NAHANT, Mass., September 10.—Ex-Congressman Theodore Lyman died here today. Theodore Lyman was born in Massachusetts in 1833. He graduated from Harvard and gave much of his time to zoological studies. During the Civil War he was Lieutenant-Colonel on the staff of General Meade. He was a member of the Forty-eighth Congress.

MONTEVIDEO, September 10.—It is announced that peace has been concluded between the President of Uruguay and the Uruguayan insurgents, through the mediation of Dr. Rittmierz, who returns here tonight from the insurgent camp with conditions of peace.

VIENNA, September 10.—Ex-King Milan of Serbia has inherited the entire fortune of the late Baron Baich, amounting to many millions of florins. Baron was heir of Prince Michael III of Serbia, who died in 1868, and was succeeded on the Serbian throne by Prince Milan, afterward proclaimed King.

SEATTLE, Wash., September 10.—The steam whaler Navarch was caught in the ice pack near Point Barrow last

July and thirty-eight of her crew are thought to have perished. Twenty-nine of the missing men left the ship on August 12th to make a dash across the field of ice to the mainland near Point Barrow, and it is thought that every one of them perished. Nine men refused to leave the vessel and, locked in a huge pack of ice, went drifting farther into the inhospitable Arctic circle. They can hardly escape death.

ATLANTA, September 8.—James Longstreet, late Major-General in the Confederate army, and prospective Commissioner of Railroads, to succeed General Wade Hampton, was married at the executive mansion this afternoon to Miss Ellen Dortch, assistant librarian of the State of Georgia.

MADRID, September 9.—The Official Gazette today published the new customs tariff of Cuba. Nearly all American goods are subject to lower duties. The tariff prohibits the entry into Cuba of arms, projectiles, munitions of war, dynamite, gunpowder, sugars (except Spanish sugar), honey, molasses, silver or bronze coins, secret pharmaceutical preparations, tobacco (except snuff), chewing tobacco and all artificial wines.

ATHENS, September 16.—It is stated that the powers have accepted Russia's proposal that the evacuation of Thessaly shall begin one month after the treaty of peace is signed.

WASHINGTON, September 15.—Upon advice from United States Consul Pringle at Guatemala to the effect that revolutionists had captured the town of Ocas, on the west coast of Guatemala, the State Department has called upon the Navy Department to send a war ship there to watch over American interests, and the Alert, at Mare Island, has been ordered to the scene of the trouble.

#### ELECTRIC CRANES ON SHIPBOARD

The effective working of the electric winches which some time since superseded the noisy donkey engines on the North German Lloyd steamers, has induced the company to equip their newest vessel, the Bremen, with electric cranes, eight of which are ranged on each side of the steamer. Four of the cranes have a capacity of 6,614 pounds each, the others 3,307 pounds, and an outboard swing of 20½ feet. The power-generating plant consists of four dynamos, each driving its own engine, two of the dynamos furnishing power to the cranes, one being used for lighting and the fourth held in reserve for accidents or emergencies. The cranes, motor and mechanism are mounted on a circular iron platform, revolving on a pivot, turned by a seven horse-power

motor, making 700 revolutions per minute, and the loads are raised by a 25 horse-power motor running 300 revolutions per minute. The load is raised or lowered by elevating or depressing a handle, and swung right or left by lateral motions of the handle, so that the cranes may be operated by the dullest stevedore. Both motors and controllers are dust and watertight, but may be easily opened, and the motion of the cranes is so absolutely noiseless that it cannot be detected by ear.

#### KLONDIKITE.

Klondike has struck in on at least five men in California since the day, a few weeks ago, the newspapers found out that there was such a place. The five men above mentioned had it bad, so bad in fact that it became chronic with them and settled on their brains, thereby unsettling them.

John L. Carriere, Secretary of the State Commission in Lunacy, has ascertained that within the past few weeks Klondike has furnished an excuse for five men to become charges on the State. They were committed to several of the insane asylums.

Mr. Carriere has no way of ascertaining how the penitentiary has been affected by Klondike, but vouches that it is bad for asylums.—Sacramento Record Union.

#### G.B.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandlers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

THEO. HOFFMAN, Manager.
